PUBLIC COMMENT:

Paula Noto does not want the solar farm next to her home. She would like a residential ballot to vote.

Donna Urbaniak is looking at monetary figures and looking for other ways in which we can invest the townships money to make up the money we would receive with the solar farm money.

Shawn Gorge wanted to know what stage the solar farm is currently. He has done research on the pros and cons.

Barbara Wetzel states she received a call from a lady that lives in Allentown regarding the solar farm and she provided information on the cons of having a solar farm in the community.
